

AVINASH SHARMA

Software Engineer | AI-ML Developer

✉ as9577735@gmail.com | ☎ +91 9153504378 | 🌐 GitHub | 🌐 Portfolio | 📍 Ranchi, Jharkhand, India

Education

Sarala Birla University, Ranchi, Jharkhand <i>Bachelor of Technology in Computer Science Engineering</i>	2023 – 2027 <i>CGPA: 8.31</i>
Bridgeford School, Ranchi, Jharkhand <i>CBSE (Class XII)</i>	2021 – 2023 <i>Percentage: 75%</i>
Bridgeford School, Ranchi, Jharkhand <i>CBSE (Class X)</i>	2020 – 2021 <i>Percentage: 91.6%</i>

Technical Skills

Programming Languages: Python, JavaScript, SQL

AI/ML Tools: PyTorch, TensorFlow, Scikit-learn, Transformers, CrewAI, Computer Vision, Deep Learning, Neural Networks, Flask, Django, REST APIs

Web/Backend: HTML/CSS, Three.js, Javascript

Tools: Git, GitHub, VS Code, PyCharm

Databases & Cloud: MySQL, Google Cloud Platform, Cloudflare Workers

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

Projects

Personal Portfolio | [GitHub](#) | [Live Demo](#)

- Engineered a browser-based 3D portfolio application with Three.js/WebGL, incorporating Blender-generated 3D assets, interactive camera controls, raycasting, animations, and embedded HTML-based UI.
- Designed responsive desktop and mobile interaction systems, including mouse-based camera navigation, touch gestures, and interactive 3D interfaces.
- Optimized and deployed a multi-entry Vite application on Cloudflare Pages, separating the landing experience from the GPU-intensive 3D environment.

Face Recognition system(ResNet-18 + ArcFace) | [GitHub](#)

- Built a face recognition model from scratch using ResNet-18 + ArcFace, optimizing training stability and embedding quality to achieve robust identity verification.

Face Detection System | [GitHub](#)

- Trained on real-world datasets with data augmentation to improve accuracy. It handles small faces and varied conditions(blur, lighting, rotation and trained on 20k+ images (WIDER FACE + WFLW).

Experience

Birla Institute of Technology, Mesra | [Certificate](#) Jun 2026 – Jul 2026
Research Intern *Offline*

- Researched ML/DL techniques for voice pathology detection by evaluating feature extraction and classification models
- Developed an STM32-based real-time voice acquisition system to stream audio for model inference on a host computer.
- Built a separate CrewAI-based diagnostic assistant for automated analysis and recommendations.

Crime Investigation Department, Ranchi | [Certificate](#) Jul 2025 – Jul 2025
Cyber Security Intern *Offline*

- Analyzed 100+ fraud cases using tipline data and the Pratibimb system, identifying patterns and troubleshooting data inconsistencies.
- Extracted and structured fraud-related data from mobile numbers; prepared clear technical reports for team review.
- Maintained and updated Excel tracking systems for fraud amounts and case details under strict timelines.

CISCO Virtual Internship Program in Cybersecurity | [Certificate](#) Jul 2025 – Aug 2025
Cyber Security Intern *Virtual*

- Completed core modules and the Junior Cybersecurity Analyst Career Path.
- Solved practical networking and cybersecurity scenarios using Cisco Packet Tracer and core security concepts.

Certifications & Achivements

- NPTEL – Fundamentals of Artificial Intelligence | [Certificate](#)
- CCNA – Introduction to Networks – Cisco Networking Academy | [Certificate](#)
- CCNA – Switching, Routing, and Wireless Essentials – Cisco Networking Academy | [Certificate](#)
- CCNA – Enterprise Networking, Security, and Automation – Cisco Networking Academy | [Certificate](#)
